WHICH CHALLENGES IS THIS LANDSCAPE FACING?

Negative impacts

- Lack of a proper management
- No instruction regarding natural heritage's value
- Not a good education system for young generation
- Lack of natural heritage protection
- Ruined natural steps and dried fountains
- Drought and global warming have effect on weather condition
- Water shortage
- illegal well drilling

New functions

- Appropriate management
- A comprehensive instruction regarding preserving natural heritage
- Making students aware of sensitivity of Badabe-Surt
- Considering proper vegetation in the area based on the specification of this environment
- Set up information desk and guidance at the site

WHAT WOULD BE YOUR STRATEGY FOR IMPROVEMENT?

Ideas

- Not allowing visitors and tourists to come onto the natural steps landscape
- Having guidance / information desks / signs / catalogues
- Repairing and reviving damaged parts and conserve them for future generation
- Right decisions regarding applying new changes such as adding new planting, vegetation in surroundings

THANK YOU!
